

My Influential Relative

By: Riley Nerney

My Grandpa

He is influential to me because when my mom was younger he owned his own business. He worked at his business before he sold it. After that he began working at cvs as a pharmacist. He is influential because he has taught me so many things throughout my life and they've really helped me when I needed it the most.

ABOUT MY GRANDPA

when he was in college he was in the purdue marching band. He also worked with my uncle during his business. He has learned so much and is teaching me all of the things that he has learned.

What He Is Doing Now

He is still living in Indiana with his my grandma. He took a break at CVS to focus on some personal things with his family. He taught me and my sister to ride a bike. He owns a sports car that he loves a lot. My family has recently been visiting him a lot so we went to the park and went to an arcade with my other cousins.

The End!!!!
